Muscle & Joint Rub

QENDA

Testimonials

"I have found Qenda Muscle and Joint Rub to be a great addition to treating Musculoskeletal Pain. I have observed that the lotion tends to initiate muscle relaxation, which allows me to get more effective results during a massage session. I have also had positive feedback from some clients who were struggling with chronic pain, as they found the lotion reduced or nullified their pain completely for a period of time, when applied correctly."
T. Fay Naturopath Coolum Beach, Queensland

"Being a cafe owner and on my feet all day, 7 days a week, my lower back has been taking a beating. Since using Qenda Muscle & Joint Rub, my back pain disappeared within five minutes of putting it on my back. I highly recommend the Rub to anyone suffering from back pain."
Helouise, Western Australia

"I have had issues for some time with pain in my hand and specifically I have been unable to bend one finger the same as the others. After using the Qenda Muscle and Joint Rub the first time by massaging it into my fingers and hand it instantly eased the pain. After using it now for a few days my finger is now able to bend the same as the other fingers. Awesome product – thank you!."
Beryl, Western Australia

"I have suffered from chronic period pain for many years and have found little to no relief with other pain relief methods. After applying the Qenda Muscle and Joint Rub a couple of times on my lower back and abdomen I experienced total pain relief for hours! I'm so glad that I have finally found an effective and natural way of relieving painful menstrual symptoms each month."
Sara, Western Australia
