

QENDA RUB TESTIMONIALS

Following are some testimonials from our valued clients...

"I have found Qenda Muscle and Joint Rub to be a great addition to treating Musculoskeletal Pain. I have observed that the lotion tends to initiate muscle relaxation, which allows me to get more effective results during a massage session. I have also had positive feedback from some clients who were struggling with chronic pain, as they found the lotion reduced or nullified their pain completely for a period of time, when applied correctly."

T.Fay Naturopath, Coolum Beach, Queensland

"Being a cafe owner and on my feet all day, 7 days a week, my lower back has been taking a beating. Since using Quenda Muscle & Joint Rub, my back pain disappeared within five minutes of putting it on my back. I highly recommend the Rub to anyone suffering from back pain."

Helouise, Western Australia

"I have had issues for some time with pain in my hand and specifically I have been unable to bend one finger the same as the others. After using the Qenda Muscle and Joint Rub the first time by massaging it into my fingers and hand it instantly eased the pain. After using it now for a few days my finger is now able to bend the same as the other fingers. Awesome product – thank you!"

Beryl, Western Australia

"I have suffered from chronic period pain for many years and have found little to no relief with other pain relief methods. After applying the Qenda Muscle and Joint Rub a couple of times on my lower back and abdomen I experienced total pain relief for hours! I'm so glad that I have finally found an effective and natural way of relieving painful menstrual symptoms each month."

Sara, Western Australia

"After undertaking a couple of hours of computer work, my right hand was very sore from lots of mouse work. I sprayed on the Qenda Muscle and Joint Rub and massaged it in for about 10 seconds instantly took away the pain!"

Jane, Western Australia

"As a retiree of 69 years young I strained tendons in my left foot while exercising. I chased down every available avenue in search of relief from the persistent discomfort without success. I was introduced to Qenda Muscle and Joint Rub by a

family member and was surprised to experience almost immediate release from the hindering pain. I can unreservedly recommend this product for those who have grown tired of having to tolerate unacceptable levels of soreness.”

Bob, Western Australia.

“My children used to say to me “you have two speeds, lightning fast or stop”. I used to suffer with pain in my feet that would leave me crippled if I was on them for too long. I used to try and tackle as much housework (or anything that required me to be on my feet) as quickly as possible before the pain set in and left me flat on my back, wreathing in pain. My husband at one stage had to carry me to the toilet because at times I couldn’t walk. I was limited to how long I could go out into the yard and play with my boy and it could never be as long as he wanted. After three applications of Qenda Muscle and Joint Rub I can start jobs and finish them without any pain at all. I can walk my boy to school and play soccer with him. To be able to start something and be able to finish it, because there is no pain anymore, has given me my life back. Thank you!”

Madonna, Western Australia

“I have suffered with back pain for some time and have degeneration in my vertebrae. I was on a number of different pain killers but nothing seemed to ease the pain for very long. To walk anywhere was excruciating and would take a long time as I was only able to shuffle about ten centimetres at a time even with the assistance of my walker. I was in that much pain and suffering from other side effects from the pain killers that I was just about ready to give up on everything. A family member told me about the Qenda Muscle and Joint Rub and I decided to give it a try. The first time I used it, within a couple of minutes my pain went from an 10 out of 10 down to a 4 out of 10. I have been applying the Rub four times a day and I am now off of all of my pain killers and can walk around far more easily. I have even been able to drive again. Thank you to Qenda Muscle and Joint Rub for giving me my life back!”

Allan, Western Australia

“I was bitten on my ear by a bee. My mum put on the Qenda Muscle and Joint Rub soon after I was stung and it took away the stinging pain straight away.”

Blake, Western Australia

"I just wanted to let you know that Qenda Muscle & Joint Rub had an amazing effect on our kittens ringworm! I homed a kitten before Christmas and to my horror he came with ringworm, which is very hard to treat. He had pills to take every day for 21 days and whilst I kept those up I decided to try the Qenda Muscle & Joint Rub on the patch as it was very scaly and dry and bald! I rubbed some in 3 times a day and within 2 days all the dryness and scaling was gone! The hair then started to grow back pretty quick. I kept up with the pills from the vet but I think the Qenda helped so

much I'm going to tell the vet! I was confident that the Qenda Muscle & Joint Rub, being organic, couldn't hurt him even if he licked! Will never be without this product!"

Shiralee, Western Australia
